PREMIUM PAYMENT

How are subsequent premiums billed? The original premium notice is mailed 20 days prior to the due date. If unpaid, a reminder notice is mailed five days after the due date. If a remittance is still not received at the end of the 31-day grace period, lapse/non-forfeiture processing will be initiated.

Can premiums be paid by automatic bank withdrawal? Premiums may be deducted from the policyowner's bank account by selecting this option on the application (including information provided on the Field Underwriter's Statement and Automatic Bank Withdrawal Provision) or by completing and returning an Automatic Bank Payment form. A form may be obtained on AssureLINK's Forms/Supplies page or by contacting the client services department at (800) 869-0355, Ext. 4279. The same form may be used to change the bank account.

Automatic bank withdrawal premium payments may be drafted on any day between the 1st to the 28th of each month. If an automatic bank withdrawal payment is returned or declined, Assurity will notify the policyowner and send a copy of the notification to the agent. If a remittance is not received prior to the expiration of the grace period, lapse/non-forfeiture processing will be initiated.

Can premiums be paid by credit card? Premiums may be paid by credit card on a one-time or recurring basis by selecting this option on the application (including information provided on the Field Underwriter's Statement and Credit Card Authorization) or by completing and returning an Automatic Credit Card Payment form. A form may be obtained on AssureLINK's Forms/Supplies page or by contacting the client services department at (800) 869-0355, Ext. 4279. Available dates for recurring payments are the 1st, 5th, 10th, 15th, 20th and 25th of each month.

Can premiums be paid in advance? Premiums may be paid in advance of their due date in a Premium Deposit Fund which can be set up by contacting the client services department at (800) 869-0355, Ext. 4279. Interest on this fund is credited annually on the anniversary date of the policy. The interest rate applied may change periodically.

Policy Description *(continued)*

How can a “list bill” be set up? Premiums may be billed to the policyowner’s place of employment in a “list bill” by selecting this option on the application (including information provided on the Field Underwriter’s Statement) or by contacting the client services department at (800) 869-0355, Ext. 4279.

Can an automatic premium loan (APL) be requested to pay premiums? If the policy has sufficient loan value, the policyowner may request to have automatic premium loans (APL) pay premiums not paid at the end of the grace period. APL must either be requested on the policy’s application or in writing received by Assurity before the grace period expires.

DIVIDENDS

LifeScape® Whole Life is a participating policy eligible to share in payment of Assurity’s earnings via dividends. Dividends are not guaranteed. If no dividend option is indicated on the application, the default option will be “Paid-up Additions.” Options include the following:

Paid-up Additions: Policy dividends are used to purchase additional paid-up insurance. The amount of additional insurance purchased is what the dividend, applied as net single premium, can buy at the insured’s attained age.

Accumulate at Interest: Policy dividends remain with Assurity and are maintained in an accumulating fund. On each policy anniversary, the fund balance is credited with interest and increased by each year’s dividend paid. The guaranteed minimum interest rate is 3 percent. Interest earned under this option is taxable annually.

Reduce Premiums/Cash: Dividends are directly applied to reduce the contract premium currently due on the policy. Any excess dividends are returned directly in cash to the policyowner.

Reduce Premium/Paid-up Additions: Dividends are directly applied to reduce the contract premium currently due on the policy. Any excess dividends are used to purchase additional paid-up insurance.

Paid in Cash: Dividends are paid in cash to the policyowner.

POLICY LOANS

Policy loans are available at a competitive interest rate declared by Assurity.

What is the maximum loan value? The amount available for the insured to borrow at any time is equal to the policy cash value reduced by any due or unpaid premiums, any current loan balance and interest on the loan through the next policy anniversary.

What is the loan interest rate? The loan interest rate may vary but will not exceed the greater of: 1) the published monthly average (Moody’s Corporate Bond Yield Average) for the calendar month ending two months before the rate is determined, and 2) the rate used to compute this policy’s cash values plus 1 percent per annum.

When is interest on the loan charged? Loan interest is charged from the date of the loan and is payable annually (in arrears) at each policy anniversary.

How does the policyowner request a policy loan? To request a policy loan, the policyowner must send a signed, written request to Assurity. For amounts under \$1,000, the policyowner may request a loan by calling the client services department at (800) 869-0355, Ext. 4279. All loan checks are mailed directly to the policyowner with a copy of the letter sent to the agent.

Policy Description *(continued)*

How are policy benefits and dividends affected by the loan? A loan balance will reduce policy benefits including dividends payable. The dividend reduction varies with the current interest rate used to determine dividends payable and the loan interest rate. “Premier” loans reduce dividends less than standard loans. For a premier loan, the dividend reduction is equal to 0.5 percent of the premier loan average daily loan balance.

How does the loan qualify as a “premier” loan? To qualify for a premier policy loan, a policyowner must either: 1) have the policy in force for 12 or more years, 2) be age 60 or older with a policy in force two or more years, or 3) have a policy in force for at least two years with a cash surrender value of \$10,000 or more. The policyowner may borrow up to 10 percent per year of the premier loan value which is equal to 10 percent of the policy cash value after adding any dividends payable and deducting any loan balance.

General Policy Terms

CONTESTABLE PERIOD

Assurity has the right to contest the validity of the policy and any attached riders based on material misrepresentations made in the initial application or reinstatement.

However, Assurity cannot contest the validity of this policy or any attached riders, except for fraudulent mis-statements in the application, after it has been in force during the lifetime of the insured for two years from the issue date or reinstatement date.

GRACE PERIOD

A premium not paid on or before its due date may be paid in that premium's grace period. The grace period begins on a premium's due date and ends 31 days later. The policy will remain in effect if a premium is paid during its grace period.

MIS-STATEMENT OF AGE OR GENDER

If the insured's age and/or gender is mis-stated in the application, Assurity will revise the policy's and any applicable rider's benefit amounts to the amount the premium paid would have purchased for the correct age and/or gender at the currently published rates.

General Policy Terms *(continued)*

NON-FORFEITURE OPTIONS

The policy will terminate on the due date of any premium not paid on or before that date unless the grace period applies. The insured may choose from the following options:

- surrender the policy for its surrender value;
- use the surrender value to purchase a reduced paid-up policy; or
- continue the policy as extended term insurance.

If the insured does not choose a non-forfeiture option within 60 days of the unpaid premium's due date, the extended term insurance option will apply.

REINSTATEMENT

A lapsed policy and any attached riders can be reinstated if:

- reinstatement is requested within three years of lapse;
- the insured and policyowner, if different, sign the application;
- the policyowner pays all past premiums compounded annually from due dates at 6 percent interest; and
- the policyowner provides satisfactory evidence of insurability.

The policy cannot be reinstated if cancelled, surrendered or is beyond maturity.

RIGHT TO CANCEL

The policyowner may examine and cancel the policy within 30 days of delivery for a full premium refund. Cancellation is effective on the date the policy is returned to Assurity or the representative from whom it was purchased. Assurity will refund the full premium paid, and the policy will be treated as if it were never issued.

The policyowner may cancel the policy after the 30-day "right to cancel" period by delivering or mailing a written request to Assurity. Cancellation will be effective on the date specified if the written request is received before that date, or on the date received if later. Assurity will promptly return the unearned portion of any premium paid.

SUICIDE

If the insured dies by suicide within two years of the issue date, Assurity's liability is limited to a refund of premiums paid. This provision expires two years after the issue date.

SURRENDER VALUE

The policy's surrender value is equal to the cash value on the date of surrender increased by the amount of the cash value of any paid-up additions, any dividend accumulation, any due but unpaid dividends, and premiums paid beyond the date of surrender; and reduced by the amount of any premiums due and unpaid, and any loan balance.

To surrender a policy, the policyowner must send a written request to the client services department and return the original policy.

Term Rider Conversion

All or part of the face amount may be converted to a new policy of permanent insurance without submitting evidence of insurability for a period beginning on the issue date and ending on the earlier of two years before end of term period or the insured's 65th birthday. Premiums for the new policy will be based on the insured's gender, age, and Assurity's rates in effect on the new policy's date of issue and the underwriting classification risk under which the rider was originally issued.

The policyowner may request conversion by completing and returning a Policy Conversion form. A form may be obtained on AssureLINK's Forms/Supplies page. Any unearned premium from the rider can be applied toward the initial premium for the new policy.

Claims Guidelines

DEATH CLAIM PROCESSING

The policyowner or beneficiary may begin death claim processing by contacting the claims department at (800) 869-0355, Ext. 4484 requesting an Application for Individual Life Benefits, and providing the insured's date of death. Complete and return this form to Assurity along with a certified copy of the insured's death certificate and the policy.

DEATH BENEFIT PAYMENT OPTIONS

The policyowner may elect a payment option other than lump sum during the insured's lifetime or the beneficiary may also elect a payment option if proceeds are payable to the beneficiary.

Options include the following:

- payment for a fixed period – equal installments for a fixed period of years not to exceed 30 years;
- payment of a fixed amount – fixed payments are made in installments until the proceeds are depleted;
- left at interest – interest of not less than 3 percent annually will be paid periodically; or
- alternate payments for life – single premium annuity with first payment immediately at then published settlement rates.

WAIVER OF PREMIUM BENEFIT ADMINISTRATION

The policyowner may request waiver benefits by completing and returning the appropriate form. A form may be obtained by contacting the claims department at (800) 869-0355, Ext. 4484.

Forms must be returned to Assurity within 180 days of total disability while the insured is still alive, the total disability still exists, and not more than one year after the insured's 60th birthday.

Until the request has been approved, the policyowner must continue to pay all premiums. When approved, all premiums paid after the date of disability, but no more than one year prior, will be refunded.

Underwriting Guidelines

NON-MEDICAL LIMITS AND EXAM REQUIREMENTS

Upon completion of the application for the proposed insured, arrangements should be scheduled to fulfill underwriting requirements indicated on the chart below. When using the chart, please note the following:

Amount of Coverage

- To calculate the amount of coverage used in determining underwriting requirements, add up the total amount of coverage applied for on this application, including term riders, plus other insurance in force with Assurity over the past two years and excluding any group insurance.
- For the **Value Enhancement Rider (VER) – Single**, if the “net amount at risk” (i.e. the amount of coverage provided by the rider minus the premium for the rider) is less than \$10,000, do not add it to the amount of in-force or applied-for coverage in determining examination requirements. If the net amount at risk is more than \$10,000, add that amount in determining examination requirements.
- For the **Value Enhancement Rider (VER) – Periodic**, if the annual periodic premium is \$500 or less, add \$2,500 to the amount of in-force or applied-for coverage in determining examination requirements. If the annual periodic premium is more than \$500, add \$5,000 in determining examination requirements.
- If applying for coverage on a juvenile (ages 0 through 14), at least one parent must carry twice the child’s current in-force coverage plus the applied-for amount.
- Telephone inspections will be required on cases \$250,001 and up.

Non-Med or Exam

- In the Exam Limits Chart, “Exam” means paramedical exams and “MD” means medical doctor’s exam.
- For ages 76 and above, the exam must be performed by a medical doctor unless the proposed insured has a medical doctor who can supply records for the last two years.
- If a TeleApp is completed, or if all questions on the application are completed, Assurity can waive the paramedical exam and use an abbreviated exam in which the paramed records height, weight, blood pressure and pulse.

Blood Requirements (BLD)

- To qualify for preferred underwriting classification, a full blood profile must be completed.
- Tobacco and Non-Tobacco Preferred classes require a fasting full blood draw. DBS (Dried Blood Spot) is not acceptable.

Urinalysis (UA)

Electrocardiogram (EKG)

Tread Mill Test (TMT)
